

Modeling Plug-in

sponsored by: Astah

Installation Instructions

This plug-in adds a new global rule each release that simplifies game play, but forces players to re-imagine traditional strategies.

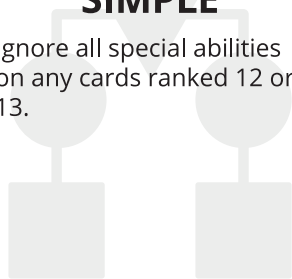

Set aside the modeling deck; each release, after revealing a Tools & Methods card, reveal a new modeling card.

KEEPING IT SIMPLE

Ignore all special abilities on any cards ranked 12 or 13.

UNIVERSAL MODELING

Players may commit any card, regardless of suit, to an iteration. During that iteration, all committed cards are considered to be of the led suit.

EASY COMMUNICATION

After all cards have been dealt, all players simultaneously reveal their hands for 30 seconds.

STATE TRANSITION

After all cards have been dealt, each player chooses five cards from their hand and discards them. Shuffle the discarded cards and then deal each player five cards.

STREAMLINED PROCESS

After all cards have been dealt, each player chooses half of their cards (round down) and discards them.

MIND MAP

When committing cards, you must commit a card that ranks higher than the previously committed card of the led suit, if able.

note: you must still commit a card of the led suit if able
