

RELEASE!

Operations Expansion

*This expansion celebrates the importance of Operations by introducing a whole new suit. The Operations suit is a trump suit, but you have to play it smart since in *Release!*, half the time you don't want to win an iteration. This expansion is only compatible with 2-5 players.*

Installation Instructions

Replace all of the base Tools & Methods cards with these 20 Tools & Methods cards; add these 12 play cards to the base play cards. Note that these play cards will add a fourth suit (Operations) to the game, and hand sizes will be slightly larger.

During the set-up step, when playing with 5 players, remove the 2 of Birds and 2 of Doors from the game (in addition to the 2 of Fruits).

During iterations, the Operations suit acts as a trump suit, and the player who committed an Operations card with the highest rank will win the iteration; if no Operations cards were committed, then the player who committed the card with the highest rank of the led suit will win the iteration as per normal.

Note that players must still commit a card of the led suit if possible.
